Prague

## Profile

---

Front-end developer with experience in React and Node.js (JavaScript, TypeScript, HTML, CSS, Material UI, Bootstrap, Anolis, Figma, Express, MongoDB, Git, Jira, Postman). Highly motivated to learn new skills and technologies. Enthusiastic about creating new products and searching for non-standard solutions. Hands-on experience with corporate software development and web application testing. A team player with extensive experience working in international teams on large European projects. Six years of experience in new product development (drugs and pharmaceutical devices). Wide knowledge in other non-IT areas that can be useful in the development of new products.
